

EUROSTAR

## EUROSTAR INDIA PVT LTD

# A brand to many Solutions

Established in 2002, the company caters to CIFA service support and is a leading player in our field of expertise like –

1. Tunnelling formwork
2. Shotcrete
3. Used machine refurbishment and sale
4. Rent a machine
5. MOL truck for oil field

NATM tunnelling for railway tunnels is in demand in India. EEPL is the only name when it comes to Tunnelling. EEPL, in collaboration with C.M. Lafar SRL Italy, provide complete solution for the same.

EEPL is specialized in Design, fabrications and erection of self-reaction tunnel formwork. We confirm stability of the same during use with varying concrete loads, construction, mock up, assembly at site and training and support at site.

Our qualified Engineering support team works round the clocks to make sure the best delivery of work.

EEPL association with CIFA SpA for 25 years for shotcrete range products and stockist of

spares to support machine maintenance. We also extended hands in refurbishment of used machine and sell / rent the same with service support. A dedicated professional team is involved for this job. Eurostar has been awarded as best after sales service provider in Indian subcontinent by CIFA in 2023.

In addition to this our long association with Mol Cy NV Belgium for Sales and Service of oilfield Winch trucks which is used in oilfield operation.

Eurostar Engineering places a strong emphasis on technological advancement. The utilization of state-of-the-art tools and methodologies ensures that their solutions are not just effective but also at the forefront of innovation.

Eurostar Engineering prioritizes understanding client requirements, ensuring that each solution is not just technically superior but also aligned with the specific needs and goals of the client. Our dedication to pushing boundaries and delivering top-notch solutions solidifies our position as a leader in our vertical.
